ANCESTRY TRAITS AND PERKS

Systematic Mind

You treat any language you don’t know as if you know a related language.

Unphased

Your ordered mind can’t be caught off guard. You can’t be made surprised.

Fall Lightly

Your silicone body is low in density. Whenever you fall, you reduce the distance of the fall by 2 squares.

Lightweight

Your body is light for a creature of your height. Whenever another creature attempts to force move you, you treat your size as one size smaller than it is.

Team Leader

At the start of a group test or montage test, you can spend a hero token. If you do, all participants make tests as if they also had any skill you have from the exploration group.

📋 Keeper of Order Free Triggered Action
Your connection to Axiom, the plane of Uttermost Law, allows you to manage chaos around you.

You can initially mark only one creature using this ability, though other tactician abilities allow you to mark additional creatures at the same time.

While a creature marked by you is within your line of effect, you and allies within your line of effect gain an edge on power rolls made against that creature.

NOTES

ROLL MODIFIERS

All tests
When parsing schematics, maps, and other systematic documents that aren't inherently chaotic

4

HIGH GROUND

Whenever a creature uses an ability to target a creature or object while standing on the ground and occupying a space that is fully above the target's space, they gain an edge on the power roll against that target. To be fully above a target, the bottom of a creature's space must be higher than or bordering on the top of the target's space.

A creature can gain this benefit while climbing only if they have "climb" in their speed entry or can automatically climb at full speed while moving.

CLIMBING / SWIMMING

A creature who has "climb" in their speed entry, or who gains the temporary ability to automatically climb, can climb across vertical and horizontal surfaces at full speed. Likewise, a creature who has "swim" in their speed entry, or who gains the temporary ability to automatically swim, can swim in liquid at full speed.

Creatures without those types of movement can still climb or swim when a rule allows them to move, but each square of climbing or swimming costs 2 squares of movement. If a surface is difficult to climb (for instance, a sheer cliff or ice-covered wall) or a liquid is hard to swim through (a raging river or whirlpool), the Director can call for a Might test. On a failure, a creature can't climb or swim but wastes no movement in the attempt. The Director can also impose other consequences to failure, such as being caught in the spinning current of a whirlpool.

Climbing other Creatures: You can attempt to climb a creature whose size is greater than yours. If the creature is willing, you can climb them without any trouble. If the creature is unwilling, you make the following test:

Power Roll + Might or Agility:

Roll	Effect
≤11	You fail to climb the creature, and they can make a free strike against you.
12-16	You fail to climb the creature.
17+	You climb the creature.

While you climb or ride a creature, you gain an edge to melee abilities used against them. The creature can use a maneuver to attempt to knock you off, forcing you to make the following test:

Power Roll + Might or Agility:

Roll	Effect
≤11	You fall off the creature into an unoccupied adjacent space of your choice, taking falling damage and landing prone as usual.
12-16	You slide down the creature into an unoccupied adjacent space of your choice and don't land prone.
17+	You continue to hold on to the creature.

If you are knocked prone while climbing or riding a creature, you fall and land prone in an adjacent space of your choice, taking damage as usual from the fall.

SNEAKING

While you are hidden from another creature and not in combat, you can attempt to sneak—avoiding the senses of other creatures as you move around them in the open—to remain hidden. While sneaking, your speed is halved. To sneak, you make an Agility test using the Sneak skill with a difficulty set by the Director. If you succeed, you remain hidden during your movement. This test can use another characteristic at the Director's discretion, such as using Presence to blend in with a crowd on a packed city street.

MANEUVERS

Any creature can take the following maneuvers, in addition to those listed in their stats:

- Aid Attack:** Choose an adjacent enemy. The next ability power roll an ally makes against them before the start of your next turn has an edge.
- Catch Breath:** Spend a Recovery.
- Claw Dirt:** You use the Claw Dirt ability.
- Escape Grab:** You use the Escape Grab ability while grabbed.
- Grab:** You use the Grab ability.
- Hide:** You become hidden from creatures who aren't observing you while you have cover or concealment from them.
- Knockback:** You use the Knockback ability.
- Make or Assist a Test:** Making or assisting a test is a maneuver in combat.
- Search for Hidden Creatures:** Attempt to locate creatures hidden from you.
- Stand Up:** You stand up from prone, ending that condition. Alternatively, you can use this maneuver to make an adjacent prone creature stand up.
- Use Consumable:** Unless otherwise noted in its description, you can use this maneuver to activate a consumable treasure. A creature can use this maneuver to administer a consumable treasure that benefits the user either to herself or a willing adjacent creature.

FLANKING

When you and one or more allies are adjacent to the same enemy and on opposite sides of the enemy, you are flanking that enemy. While flanking an enemy, you gain an edge on melee strikes against them.

If you're unsure whether your hero and an ally are flanking a foe, imagine a line extending from the center of your space to the center of your ally's space. If that line passes through opposite sides or corners of the enemy's space, then you and your ally are flanking the enemy.

You must have line of effect to the enemy and be able to take triggered actions to gain or grant the flanking benefit.

CONCEALMENT

Darkness, fog, invisibility magic, and any other effect that fully obscures a creature or object but doesn't protect their physical form grants that creature or object concealment. Even if you have line of effect to such a target, a creature or object has concealment from you if you can't see or otherwise observe them. You can target a creature or object with concealment using a strike, provided they aren't hidden. However, strikes against such targets take a bane.
